Athens 4-10-2013

Dear friends and colleagues,

Professor Kee-Young Yeun is an international academic scholar who is active in many fields of law. He is successfully involved not only in academic teaching, but also in research on several topics, including sports law.

I have an excellent cooperation with Professor Kee-Young Yeun that dates back several years, since he has served as a member of the IASL Board of Directors for two terms and as President of the Korean Association of Sports and Entertainment Law (KASEL) too.

In my capacity as Professor at the University of Athens and President of the International Association of Sports Law (IASL), I would like to congratulate you for your initiative to publish the collected essays for the achievements and academic performance of Professor Kee-Young Yeun on the occasion of the celebration of his 60th birthday.

Professor Kee-Young Yeun has assumed a pioneering role in laying the foundations of Sports and Entertainment Law and has made countless contributions to its progress as a Professor of Civil Law in Korea, as he was able from such a position to combine his nation's great history and special contribution in modern law by successfully transplanting traditional Continental law paradigms into the unique oriental philosophy and culture.

I wish the best of success to your project.

Best Regards

The President of IASL
